- A Member or Insured Party who intentionally provides false information or uses forged or falsified documents with the intention of misleading the Insurer shall forfeit any right to the cover for the Event in question;
- All necessary measures must immediately be taken to limit the consequences of the Event and speed up the recovery of the Insured Party, who must submit to the medical care required by their condition. The Insured Party shall forfeit any right to cover in the event of a failure to fulfil this commitment to limit the extent of the Claim;
- **The Insurer's doctor must be able to freely examine the Insured Party in order assess their condition.** Any unjustified refusal to comply with this assessment, after a formal notice has been provided by registered letter, shall result in the forfeiture of the cover.

Section IV - Obligations of the Member

A. Declaration of risk on taking out the Policy

The Member must accurately declare all information of which they are aware that may enable the Insurer to assess the risks it is assuming and that are specified in the **Policy's Special Conditions**.

B. Declaration of changes to the risk during the life of the Policy

The Member must declare to the Insurer any aggravation of the elements used to assess the risk covered by the Insurer.

Where the modification constitutes an aggravation of the risk, such as if the new state of affairs had existed when the Policy was signed, the Insurer shall not be bound or shall be bound only by way of a higher Premium, the Insurer may propose a new Premium.

Should the Member refuse to pay this new Premium, the Insurer may terminate the Policy subject to a notice period of ten (10) days.

Any concealment, wilful misrepresentation, omission or inaccuracy in the disclosure of this information shall be subject to penalties, even if it has no impact on the Claim, in accordance with the conditions set out in Articles L. 113-8 and L. 113-9 of the French Insurance Code:

- In the event of bad faith, by the Policy being rendered void;
- If bad faith is not established, by a reduction in compensation based on the premiums paid in relation to the premiums that would have been due had the risks been accurately and fully declared.

In the event of a failure to fulfil the obligations relating to the Declaration of Risk on Taking Out the Policy and the Declaration of Changes in Risk during the course of the Policy, Forfeiture may be imposed on the Member.

C. Payment of the premium

The annual Premium or, in case of split payment, the fractional Premiums and processing fees, in the amount stipulated in the Special Terms and Conditions, as well as the taxes, shall be payable in advance on the agreed dates.

Should a Premium or Premium instalment not be paid within ten (10) Days of its due date, and irrespective of the Insurer's right to pursue the enforcement of the Policy in court, cover may only be suspended thirty (30) Days after the Policyholder has sent a registered letter constituting formal notice.

If the annual Premium is payable in several instalments, the non-payment of a Premium instalment by the due date shall result in the remaining Premium instalments for the current Policy Year being payable.

The Insurer shall have the right to terminate the Policy ten (10) days after the end of the period of thirty (30) days mentioned in the second sub-paragraph of this paragraph.

If the Policy has not been terminated, it shall regain its ongoing effect at noon on the day following the payment of the overdue Premium to the Insurer or its appointed representative. In the case of an annual split Premium, the same shall apply after payment of the overdue instalments that were the subject of the formal notice, along with those that became due during the suspension period, as well as any applicable prosecution and recovery fees.

Section V – Cancellation of the Policy

The Policy may be terminated:

1. By the Member

The Member may terminate the Policy at any time falling one year after the policy is taken out, subject to providing one (1) **month's notice**.

And, pursuant to Article L. 113-4 of the French Insurance Code:

In case of disappearance of aggravating circumstances mentioned in the Policy if the Insurer refuses to reduce the insurance Premium accordingly within ten (10) days of the complaint made by the Member by registered letter.

The termination shall take effect upon the end of a period of thirty (30) days following its notification to the Insurer.

In the event of a price increase, the Member may terminate the Policy within fifteen (15) Days of the date on which it became aware of this increase.

The termination shall take effect upon the end of a period of thirty (30) days following its notification to the Insurer.

2. By the Insurer

The Insurer may terminate the Policy each year, on the annual expiry date, subject to a notice period of at least two (2) months.

In the event of non-payment of the Premium within the deadlines provided for in Section IV of this information notice (Article L. 113-3 of the French Insurance Code).

In the event of an increase in the risk if the Member does not accept the new Premium rate proposed by the Insurer by the deadline stated in Section IV of this information notice (Article L. 113-4 of the French Insurance Code).

In case of omission or inaccuracy in the declaration of risk at the signing or during the life of the Policy (Article L. 113-9 of the French Insurance Code).

3. Automatically

In the event of complete withdrawal of the Insurer's authorisation, under the conditions of Article L. 326-12 of the French Insurance Code.

4. Termination formalities

The termination of the Policy, by either party, must be notified at least two (2) months before the expiry date.

The Member must be notified of termination by the Insurer by registered letter.

Where the Member has the right to terminate the Policy, it may do so at its option, either by registered letter or by a **declaration made against receipt at the Insurer's headquarters**.

In the event that a registered letter is sent, any notice period for termination (except in the case of non-payment of Premiums) shall be counted from the date of the postmark.

In the event of termination during an insurance period, the portion of the insurance Premium for the remaining term shall be reimbursed to the Member if it has been paid in advance. However, this portion of the Premium shall be retained by the Insurer if the Policy was terminated due to the non-payment of Premiums.

The termination or non-renewal of the Policy shall have no effect on the payment of the services acquired or arising during its period.

Section VI – Miscellaneous Provisions

A. Compliance with economic and trade sanctions

The Insurer is not deemed to provide cover and is not required to pay any claim or compensation resulting therefrom if the provision of such cover, the payment of such a claim or compensation exposes the Insurer or its parent company to any sanction, prohibition or restriction implemented pursuant to United Nations resolutions or economic and trade sanctions, or the laws and regulations of the European Union, France, the United Kingdom, France or the United States of America.

B. Expert appraisal in the event of disagreement

In the case of a medical disagreement, each party shall appoint a physician to organise a joint expert appraisal.

If these physicians fail to reach an agreement, a third physician shall be added to reach a final decision, which will be the arbitrating decision.

If one of the parties does not appoint a physician or if the physicians representing the parties do not agree on the choice of the **third physician, the President of the High Court of the Insured Party's Home will appoint the physician.**

Each party will bear the fees and costs relating to the intervention of the physician that the party has designated. **The fees and costs of the third physician's intervention will be divided equally between them.**

C. Mediation

As this policy is made and signed in good faith, the contracting parties undertake, in the event of a dispute, to bring court proceedings only after an attempt at mediation.

To this end, they will each appoint a mediator. In case of disagreement between the two mediators on the resolution of the dispute, they may mutually choose a third mediator and rule by majority vote.

Each party shall pay the fees and expenses of the mediator that it has appointed and, where applicable, half the fees of the third mediator.

D. Limitation period

All actions arising from an insurance policy shall be limited to two (2) years from the date of the event giving rise to them under the conditions provided for in Articles L. 114-1 and L. 114-3 of the French Insurance Code.

Article L. 114-1 of the French Insurance Code provides that:

"All actions arising from an insurance policy are subject to a limitation period of two years from the date of the generating event.

However, this period will run:

1. In the event of concealment, omission, or a false or inaccurate declaration of the risk involved, from the day on which the Insurer became aware of this
2. In the case of a Claim, from the day when the interested parties became aware of it, if they prove that they were unaware of it until then.

When the Insured Party's action against the Insurer is due to the recourse of a third party, the limitation period will run from the day when this third party initiated a court action against the Insured Party or was compensated by the Insured Party.

The limitation period will be extended to ten years for life insurance policies if the beneficiary is a person other than the Insured Party and, for personal accident insurance policies, if the beneficiaries are the assignees of the deceased Insured Party.

For life insurance policies, notwithstanding the provisions of paragraph 2, the beneficiary's actions will be limited in time to no more than thirty years from the death of the Insured Party."

Article L. 114-2 of the French Insurance Code provides that:

"The limitation period is interrupted by one of the ordinary causes of interruption of the limitation period and by the appointment of experts following a Claim.

The interruption of the limitation period of the action may also result from the sending of a registered letter or an email with

return receipt sent by the Insurer to the Insured Party regarding the action for payment of the premium and by the Insured Party **to the Insurer regarding the payment of the compensation.**”

Article L 114-3 of the French Insurance Code:

“Notwithstanding Article 2254 of the French Civil Code, the parties to the insurance policy may not, even by mutual agreement, change the length of the limitation period or add causes for its suspension or interruption.”

The ordinary causes of interruption of the limitation period referred to in Article L. 114-2 of the French Insurance Code are set out in Articles 2240 to 2246 of the French Civil Code provided hereinafter.

Article 2240 of the French Civil Code:

The acknowledgement by the debtor of the right of the person whom the debtor attempted to prevent from invoking the statute of limitations interrupts the limitation period.

Article 2241 of the French Civil Code:

A legal action, even by way of summary proceedings, shall interrupt the limitation period and the peremptory time limit. The same applies if the proceedings are brought before a court lacking jurisdiction or where the court referral is annulled due to a procedural error.

Article 2242 of the French Civil Code:

An interruption resulting from the proceedings continues to be effective until the closure of proceedings.

Article 2243 of the French Civil Code:

The interruption shall be voided if the plaintiff abandons the proceedings or allows the proceedings to lapse, or if the **plaintiff's** petition is definitively rejected.

Article 2244 of the French Civil Code:

The limitation period or peremptory time limit is also interrupted by a protective measure taken pursuant to French Civil Enforcement Proceedings Code or an enforcement act.

Article 2245 of the French Civil Code:

A formal demand made to one of the joint debtors by way of proceedings or an enforcement act, or the debtor's acknowledgement of the right of the person against whom the debtor invoked the limitation period shall interrupt the limitation period for all other parties, including their successors.

However, a formal demand made to one of the successors of a joint debtor, or this successor's acknowledgement thereof, shall not interrupt the limitation period with respect to the other joint successors, even in the case of a mortgage debt, if the debt can be divided. This questioning or acknowledgement only interrupts the limitation period, with respect to other co-debtors, for the portion for which the heir is responsible.

In order to interrupt the limitation period for the entire matter, with respect to other co-debtors, all the deceased debtor's heirs must be questioned or acknowledged.

Article 2246 of the French Civil Code:

The questioning of the principal debtor or its acknowledgement interrupts the limitation period against the surety.

E. Subrogation

Up to the amount of the compensation paid, the Insurer is subrogated under the terms of Article L. 121-12 of the French Insurance Code to the rights and actions of the Insured Party or his or her successors against any person responsible for the Claim. Similarly, where the cover provided under this Information Notice is fully or partially covered by another insurance policy or health insurance organisation, the Social Security department or any other institution, the Insurer shall take the place of the Insured Party or their Legal Representative in their rights against the aforementioned organisations and Insurers.

F. Multiple Insurance Policies
